Subject: South Fork of Quitchupah Amendment

Daron:

Sufco respectfully withdraws the mine's submittal titled "South Fork Quitchupah 2R2S Block "A" Amendment, 2nd Submittal, to the Canyon Fuel Company, LLC, Sufco Mine, Permit Number C/041/0002". The request is being made so the mine can update the PHC and portions of the hydrology section of the permit. During a field trip into the South Fork of Quitchupah canyon downstream of the 2R2S panel on August 28th with April Abate of your staff, we discovered a spring that had previously not been mapped or identified in the PHC or permit. To address the issues related to this spring, and any others we may find in the canyon within a reasonable distance of the panel, the mine needs revise its submittal. Once the revisions are complete, the mine will resubmit the amendment. We anticipate the revisions will only take a few weeks to complete.

Thank you for your consideration and help in this matter,
Chris Hansen
